

Conversion kit universal target frame

Conversion kit for universal target frame on optimized plexiglass for clearly better visibility of the laser beam.

Conversion kit includes:

1. Target frame DN 150 - 300, red, plexiglass
2. 2 x screws M4 x 25 DIN 912
3. Hex-wrench

If the more thicker new plexiglass target plate does not fit in the target frame, you have to replace the screws, signed with an arrow, by the attached ones.
